TMTA Partners with Truckers Matter

Promotes AmericanTruckJobs.com as Employment and CSA Education Catalyst

AUSTIN – Texas Motor Transportation Association (TMTA) today announced a joint partnership with the private provider Truckers Matter (<http://www.truckersmatter.com>), a trucking education and employment network focusing on the Federal Motor Carrier Safety Administration’s Compliance Safety Accountability regulations. As the industry faces the challenge of a driver shortage and increased regulations, Truckers Matter will assist TMTA in efforts to meet the diverse needs of drivers and companies in an environment of constant change.

“TMTA is proud to partner with Truckers Matter to offer the Texas trucking industry a one of a kind resource focused on increased safety through CSA education,” said TMTA President and CEO John D. Esparza. “As the association representing Texas truckers, we want to ensure we are establishing a level of professionalism and benefits that provide drivers with greater employability and better career opportunities, not just job placements.”

Through this partnership, Truckers Matter will offer driver and company members a two fold approach with i-Matter CSA Driver Service and Recruiters Matter Service.

i-Matter CSA Driver Services gives drivers the ability to take ownership and responsibility for their driving history and brings recognition to their commitment to safety on the road. i-Matter has a Seven Step Membership Program that develops and empowers the trucker through CSA consulting, education and a network of benefits. The Recruiters Matter Services keeps safety as the core focus of hiring and expedites the entire prescreening process. Serving as an umbrella destination, Recruiters Matter allows carriers to see the entire history and risk of each driver they recruit from one easy to maneuver dashboard.

“Through this collaboration, we hope to see members adapt to the changes that CSA brings to the industry and position themselves for growth,” said Esparza.

The partnership between TMTA and Truckers Matter has also manifested into the creation of AmericanTruckJobs.com; a site that not only connects drivers with jobs, but also offers companies the opportunity to provide CSA education. This site will serve as the primary clearinghouse and resource for the industry nationwide.

“Truckers Matter is dedicated and passionate about the individual commercial driver that keeps our nation's highways safe while delivering the food we eat, clothes we wear and fuels we need,” said Truckers Matter founder David Saunders.

For more information on Truckers Matter, visit: <http://www.truckersmatter.com> or www.AmericanTruckJobs.com

Texas Motor Transportation Association is a trade organization dedicated to advocating sound public policies, providing excellence in education and training, and promoting a safe, dependable and cost-effective motor transportation system to better serve the people of Texas. Eight-two percent of communities receive goods exclusively by truck. For more information, please visit: www.tmta.com

Truckers Matter is committed to seeing drivers, owner operators, and carriers succeed in the ever changing transportation industry by delivering CSA Service's they need.
